Preview for Windows: PDF tools

Try the PDF menu:

1. OCR page 2, then use Select text or Find.
2. Review blank pages: page 3 is intentionally blank.
3. Search and redact DEMO-SECRET on page 4.
4. Edit the text or image objects on page 4.
5. Add bookmarks, labels, headers and page numbers.
6. Export a compressed copy or compare against an edited copy.

All content in this sample is synthetic.

Read PDF-TOOLS.md for feature details and limitations.
